INSTRUCTIONS TO ENUMERATORS.

I.—RULES FOR FILLING UP THE SCHEDULE.

You must use black ink only and write very clearly and in full, never using abbreviations. In the case of every person enumerated, columns 2—8 *and* 12—14 *must invariably have an entry made in them, and there must always be an entry in at least one of the three columns numbered* 9, 10 *and* 11.

COLUMN 1 (*House number*).—Enter the CENSUS number painted on the house. If the house is empty, write "empty" after the number, and leave one line blank. If you find a house without a number, you will enumerate the inhabitants and report the fact to the Supervisor.

COLUMN 2 (*Serial number*).—This column is not to be filled up until after the final enumeration. You will then enter a serial number for all persons enumerated in the book.

COLUMN 3 (*Name*).—Enter first the name of the chief resident member of the family, whether male or female; then those of the other members of the family and their resident servants, if any. If there be any objection made to giving the name of a female write the word "female" (adding her relationship to some member of the family) and fill up the rest of the columns for her as usual. If an infant has not yet been named, enter the word "infant." If any female is unwilling to give her own or her husband's name, you must ask some one else for the information. When you have entered all the persons in a house, you will leave one space blank before making the entries for the next house.

COLUMN 4 (*Religion*).—Enter here the religion which each person returns, as *Hindu, Muhammadan, Christian, Jain, Parsi, etc.* In the case of Christians the sect also should be entered below the entry for religion, *e.g.*, *Church of England, Roman Catholic, Lutheran, Baptist, etc.* In the case of aboriginal tribes who are not Hindus, Muhammadans, Christians, etc., the name of the tribe should be entered in this column, *e.g.*, *Chenchu, Kurumba, Khond, Savara, etc.*

COLUMN 6 (*Male or female*).—Enter whether male or female, even though you have written the word "female" in column 3 already. Enter eunuchs as male.

COLUMN 6 (*Married, etc.*).—Enter each person, whether infant, child or grown up, as either *married, unmarried,* or *widowed.* Divorced persons should be entered as widowed, and dancing-girls as married or unmarried according as they return themselves.

COLUMN 7 (*Age*).—Enter the number of years each person has completed. For infants less than one year old, enter the word "infant."

COLUMN 8 (*Caste*).—Enter the *main* caste of Hindus (*e.g.*, Brahmen, Kallan, Vellála, Kápu, Náyar, Bant), and of Jains who declare themselves to have castes. Do not enter vague terms such as Sudra, or general names such as Pillai, Nayudu, Mudali, Menon, etc.

In the case of hill or other aboriginal tribes, enter the name of the tribe, *e.g.*, Khond, Irula, Toda, Kurumba.

In the case of Muhammadans, say whether a person is a Shaikh, Sayad, Pathan, Labbai, Mappilla, etc.; for Christians, whether English, Eurasian, Armenian, Native Christian, etc.; if a Buddhist, Burman, Chinese, etc.

COLUMN 9 (*Principal occupation of actual workers*).—Enter the principal means of livelihood of all persons who actually do work or carry on business, whether personally or by means of servants, or who live on private property (*e.g.*, *house-rent, pension, etc.*). Enter the exact occupation and avoid vague terms such as "service" or "writing" or "labour." For example, in the case of labour, say whether in the fields, or in a coal mine, or jute factory, or cotton mill or lace factory, or earthwork, etc. In the case of agriculture distinguish between landowners and tenants, cultivators and non-cultivators, farm servants (whose labour is hired for a considerable period) and casual or daily field labourers. If a person makes the articles he sells he should be entered as "maker and seller" of them. Women and children who work at any occupation which helps to augment the family income must be entered in column 9 under that occupation and not in column 11. Column 9 will be blank for dependants.

COLUMN 10 (*Subsidiary occupation of actual workers*).—Enter here any occupation which actual workers pursue at any time of the year in addition to their principal occupation. Thus, if a person lives principally by his earnings as a cultivating landowner, but partly also by bandy-driving, the words "cultivating landowner" will be entered in column 9 and "bandy-driver" in column 10. If an actual worker has no additional occupation, enter in column 10 the word "none." This column will be blank for dependants.

COLUMN 11 (*Means of subsistence of dependants*).—If the person does not work or carry on business either personally or by means of servants and has no private property and is dependent on another for a livelihood, enter in this column the principal occupation of the person upon whom he or she depends. This column will be blank for actual workers.

COLUMN 12 (*Birth district*).—Enter the district and State in which each person was born; and if the person was born outside the Madras Presidency but in India, add the name of the province to the district of birth. If the person was born out of India, enter the country, as *England, Afghanistan, Ceylon.* The names of the villages, taluks, etc., are not to be given.

COLUMN 13 (*Language*).—Enter the language which each person ordinarily speaks in his own home. In the case of infants and deaf-mutes the language of the mother should be entered.

COLUMN 14 (*Literate or illiterate*).—Enter against all persons who can both read and write any language, the word literate. Against persons who cannot read and write any language make a × in this column.

COLUMN 15 (*English*).—Enter the word "English" against all persons shown as literate who can both read and write English. The column will be blank for those who cannot.

COLUMN 16 (*Infirmities*).—If any person be insane or blind of both eyes, or suffering from corrosive leprosy, or deaf and dumb from birth, enter the name of the infirmity in this column.

Do not enter those who are blind of one eye only, or who are suffering from white leprosy only, or who have become deaf and dumb after birth.

II.—PROCEDURE.

A.—The First Round (Preliminary Enumeration).

1. As soon as you receive this book obtain from the Supervisor of your circle the list of the buildings in your block and from that fill up completely the "block list" stitched at the end of the book.

2. Fill up also the headings of the block list and of all the pages in the book, and enter the particulars of the book in the form on the left of the previous page of the cover. Your Supervisor will show you how to do this.

3. Next, beginning on the 20th of January in villages and on the 4th February in towns, you will visit every house in your block to which a separate number has been affixed, in the order in which the houses are entered in your block list, and fill up the columns in the schedule for all persons who ordinarily live in the house. Even if they are temporarily absent, such persons should be entered, if they will be back by the 10th March. Visitors should not be entered if they will have left before that date.

4. You must carefully study the instructions given above for filling in the columns of the schedule and also the specimen schedule on the cover of this book which contains a number of entries illustrating the rules. You should consult your Supervisor whenever you are in doubt as to the proper entry.

5. If directed to do so by your Supervisor, you will make a rough draft on plain paper and you will not copy it in your book until it has been passed by him. When so copying them remember that after you have written down all the entries relating to any house, you should leave one space blank before making the entries for the next house.

6. If the entry for any person in any of the columns of the schedule be the same as that for the person entered on the line above, you must repeat the entry. You must not write the word "ditto" or make dots.

7. You must have completed all the entries in your block by the 10th February in villages and 24th February in towns.

B.—The Second Round (Final Enumeration).

8. On the evening of the 10th March, at the time of lighting lamps, you will take this book as already filled in and again visit every house in your block in order. Before you start on your round, you must see that you are yourself enumerated in the house where you are stopping.

9. At each house, you must summon the chief member of each family and read over to him one by one the names of the members of his household entered in the schedule, asking him, as you read each name, whether the person is present in the house or not. You must also ask him particularly whether any fresh persons have come or any child has been born. You must strike out all the entries for persons who are not present, and fill up the form for any person now in the house who was not there when the first visit was made, such as guests, infants newly born, and others. You are to consider as present all persons living in the house, even though any of them may be out fishing or watching in the fields or carrying on any out-door occupation or duty.

10. The fresh entries mentioned in the last rule must be made on the blank pages at the end of your book. In each case you will enter the number of the house to which the fresh entries relate, writing under it the word "continued."

11. You must make no alteration whatever in any entry against the name of any person unless you have to strike out the entries altogether, because he or she is no longer present. When you strike out a person, you must draw a line completely through all the entries following that person's name, and not merely through column 3.

12. Whilst going on the second round, you must visit every house marked "empty" in your book to see whether any person is then living there. If any persons are living there, you should enumerate them.

13. You must also go to the chattrams, cartstands, encampments and landing places, where travellers rest for the night, and enter all particulars in the schedules for the wayfarers, boatmen, pilgrims and others you may find there, and strike out the entries already made against persons who are not then present. You should ascertain from the village watchman whether any members of a wandering tribe have come to your block. If so, you must go and enumerate them in the manner prescribed above.

14. If any European or Eurasian householder in your block has been given a Household Schedule, you must collect it on the morning of the 11th March, and after seeing that columns have been duly filled in according to the rules, you must stitch it into your book, next to the last schedule filled up by you.

15. When you have enumerated all the persons in your block, and not until then, you must fill in the serial numbers for them in column 2 of all the schedules.

16. You will then (on the morning of the 11th March) go without any delay to the place appointed by your Supervisor, and after your book has been inspected by him, you will enter in the abstract printed on the inside of the cover, the number of houses and persons, male and female, in your block. When you have done this correctly, the Supervisor will take charge of your book and your duties will be finished.

17. According to the Census Act, every person is legally bound to furnish you with such information as is necessary for filling up the schedule, but you are forbidden to ask for any information not required for the purposes of the census, as, *for instance, the amount of any person's income.* Any enumerator extorting money on any pretext connected with the census renders himself liable to punishment under the Census Act or the Penal Code.

Board of Revenue (Land Revenue),
Chepauk, 22nd November 1910.

A. R. LOFTUS-TOTTENHAM,
Secretary.

Whereas it has been found necessary to take steps to control the preparation, possession and sale of denatured spirits in the Madras Presidency, the following rules have been framed by the Board of Revenue, under section 2, Act XVI of 1863, and sections 13 and 15 of the Abkári Act I of 1886, in that regard in supersession of those contained in Notification No. 7, dated 7th February 1910, published on pages 281 and 282 of the *Fort St. George Gazette*, dated 8th February 1910, Part II. They will come into force from and after 1st January 1911:—

1. Denatured spirit is spirit rendered effectually and permanently unfit for human consumption by the admixture of light caoutchoucine and crude pyridine bases wholly made from a mineral source, or wood-naphtha, or other special denaturants, approved of by the Board of Revenue.

2. Denatured spirits are liable to a duty of 5 per cent *ad valorem*: the duty being calculated on the declared issue price of each consignment at the distillery, less the discount, if any, allowed to purchasers and the duty. Distillers should, when applying for a permit, declare the sale price of the spirit at the distillery for the purpose of calculating the *ad valorem* duty.

3. Denatured spirit may be manufactured by holders of distillery licenses in the Presidency, provided (1) that the light caoutchoucine and pyridine bases to be mixed with the spirit must first be tested and approved in the Board's Laboratory, (2) that they must be kept under the lock and key by, and used under the supervision of, the distillery officer, (3) that they must be used in the proportion of $\frac{1}{2}$ a gallon of light caoutchoucine and $\frac{1}{2}$ a gallon of pyridine bases to 99 gallons of the spirit, and (4) that the spirit shall not be of less strength than 50 per cent. over proof. Similar conditions apply to the use of wood-naphtha, in the special cases where its use is permitted, with this difference that one part by volume of crude wood-naphtha shall be mixed with nine parts of spirit and that the use of wood-naphtha in a highly purified condition will not be permitted. The Board's previous sanction should be obtained in cases of special methods of denaturation for spirit intended for use in particular arts and manufactures.

4. Spirit denatured with light caoutchoucine and pyridine bases may be imported by sea, but samples must be submitted to the Board's Laboratory and there certified to be fully

denatured before removal from the Custom-house can be permitted. In the case of imports by sea from other Presidencies a certificate from the Collector of Customs at the port of shipment to the effect that the spirit has been fully denatured may be accepted in lieu of the Board's report. Spirit that is not sufficiently denatured must either be denatured afresh or must pay duty at the full tariff rate. Spirit treated with wood-naphtha or other special denaturants can be imported only with the special sanction of the Board.

5. Licenses (M.S.—1) for sale of spirit denatured with light cœutchoucine and pyridine bases will be issued by Collectors, free of fee, to respectable applicants on their showing that they have a legitimate demand for such spirit. All such applications should be forwarded to the Collector through the Inspector of the Salt, Abkári and Customs Department of the Circle in which the applicant wishes to hold his license. The issue of licenses to persons licensed to sell liquor for consumption on the premises is prohibited.

6. The holders of M.S.—1 licenses may obtain their supplies of spirit from the custom-house or distillery on production of a written permission (M.S.—2) from the Collector of the district in which the custom house or distillery is situated for the removal of the same. Books of form of application for such permission (M.S.—2) will be supplied to them. These applications should be forwarded to the Collectors concerned through the Collector of the district to which the applicant wishes to transport the spirit. The licensees are also empowered to sell spirit to one another and to holders of M.S.—1-a licenses up to a maximum of 20 gallons at a time. The transport of spirit thus sold should be covered by a permit to be granted by the seller in each case. Books of permits (M.S.—3) for the transport of the spirit to be obtained from holders of M.S.—1 licenses in quantities exceeding one gallon but not exceeding 20 gallons will be issued to holders of these licenses on application to the Collector of the district in which they carry on their business.

7. Varnish-makers and others requiring spirit denatured with light cœutchoucine and pyridine bases for use in their business but not for sale, will be given special licenses (M.S.—1-a) on application, supported by evidence as to their requirements through the Inspector of the Circle, to the Collector of the district in which they carry on their business. They will be supplied by distillers or through the custom-house on presentation of a permit (M.S.—2-a) to be obtained from the Collector on application in form (M.S.—3-a). These licensees may also obtain their supply of spirit from holders of M.S.—1 licenses up to a maximum of 20 gallons at a time.

8. Holders of M.S.—1 and M.S.—1-a licenses will, on application to the Collector of the district in which they carry on their business, be furnished with books of requisitions (M.S.—8) authorising them to obtain spirit denatured with light cœutchoucine and pyridine bases in quantities exceeding one gallon but not exceeding 20 gallons at a time from holders of M.S.—1 licenses.

9. Similar licenses (M.S.—1-b) will be given to Chemists and others who, for special reasons, require spirit spoiled with wood-naphtha. The procedure will be the same except that (unless the Board has given a special authority to import) the spirit will be obtainable only from local distilleries and that the licensees will be required to enter into a bond (M.S.—4) with the Collector undertaking to use the spirit for the purpose specified and no other. The forms to be used in this case will be M.S.—1-b, M.S.—2-b, M.S.—3-b. Persons holding these licenses will also be allowed to sell such spirit up to a maximum of one reputed quart at a time, on the use of it being ordered in writing by a competent medical man. Such orders are to be retained by the seller in his stock book until the latter is inspected by an Abkári officer.

10. A special license in form M.S.—1-c will be issued to the Railway Companies in the Presidency for the storage and use of spirit denatured with light cœutchoucine and pyridine bases and its distribution to such stations on their respective lines, as may be specified in the license, provided that the licensees enter into bond with the Collector undertaking to use the spirit for the purpose specified in the license and no other. The licensees may obtain their supplies of the spirit from the custom-house or distillery on production of a written permission (M.S.—2-c) to be obtained from the Collector of the district in which the custom-house or distillery is situated on application in form M.S.—3-c. The Railway Companies will be exempted from taking out separate licenses for individual stations for the possession and use of the spirit received from the M.S.—1-c premises. The transport of spirit should be covered by a permit (M.S.—9) to be granted by the licensees in each case.

11. The Customs or Distillery officer concerned will send an advice in form M.S.—5 of each issue of denatured spirit that he makes to the Inspector of the Circle to which the spirit is consigned. This advice must be sent promptly at the time of issue. No issue of more than 120 gallons at any one time to any one person is permitted. This limit will in the case of holders of M.S.—1-c licenses be extended to 320 gallons.

12. Unlicensed persons are prohibited from selling denatured spirit, and from possessing more than one gallon at a time. The limit is fixed under section 13 of Act I of 1886. Breach of this rule will subject the offender to the penalties prescribed in the Act.

13. When insufficiently denatured spirit is again denatured under rule 4 *supra*, the importer will bear the expense.

14. The minimum strength at which imported and locally-made denatured spirit can be sold will be 50° over-proof.
